Alan Piggott said: “We have been very grateful for the events we attended.”

Mohammed Faisal Rajab-Ally said: “I am immensely proud of you, for all you have achieved.”

Karen Furse agreed with Mohammed. “The figures indicate over the past year Sheila and Steph have more than doubled the number of people in the YPWD-MK network! The number of families to be invited to our next event represents over 25% of the possible client group in Milton Keynes. This is an outstanding achievement few other groups could claim. I know both the Academic Health and Science Network (who gave some funding and asked us to begin) and the team at YPWD Berkshire (who shared their development experiences) are thrilled by this update and extremely proud.”

Karen went on to say; “YPWD-MK is a network. It is about knowing people to contact, not attending every event. We must ensure YPWD-MK continues to provide people affected by Young Onset Dementia with opportunities to meet others, use skills, and share fun, hope and support.”
